WEST VIRGINIA SUPREME COURT OF APPEALS

STATISTICAL ACTIVITY

1985

EXECUTIVE SUMMARY

The Statistical Summary depicted on the following page lists the various applications filed, granted, refused, cases disposed and pending, according to the various case categories.

There were 1,372 applications filed with the court in 1985, up from 1,282 in 1984.

Refused applications number 789, as opposed to 730 in 1984.

Fewer applications were granted at 483, compared to 543 in 1984.

More cases were disposed in 1985. There were 479 disposed, compared to 394 in 1984. It should be noted that 479 is the greatest number of cases disposed during one year in the history of the court. There were 244 opinions and 172 orders written. Thirty-three cases were dismissed and various other disposals accounted for 30 cases.

A total of 317 cases were pending just prior to the start of the January 1986 Term of Court, down from 337 at the end of 1984.

TOTAL CASES DISPOSED = 479

The average processing time for cases disposed in 1985 is calculated on Page 5.

It now takes an average of 207 days, following judgment in the lower court, for an application to be filed with the Supreme Court.

An average of 59 days is spent to bring the application to a writ conference and grant it.

Once the case is granted, 73 days are consumed getting the full record from the Circuit Clerk.

Once the record arrives, 39 days are required to print the copies that are necessary.

The briefs are submitted in 103 days, on average.

Once the case matured, 116 days elapsed before the actual hearing.

Once the case is heard, 80 days are used to generate the opinion or order.

Of the 677 processing days, 207 were consumed between judgment in the lower court and filing in our Court. Our processing time of 470 days was slower than last year's 399 days.

Processing times improved in preparing of opinions and orders and in the printing time for the record.

As predicted last year, the increased number of pending cases that were actually disposed during 1985 increased the processing time in all other areas of case processing. Processing time should improve marginally during 1986.

The 23rd and 31st remain the busiest circuits per judge in the state. Both judges in these circuits are working very hard, but the backlog will remain excessive if they do not receive some assistance in the form of a third judgeship.

The largest pending backlog remains in the 13th Circuit. This problem must be addressed by increasing the disposition per judge through improved administration and procedures, as well as continued and increased assistance from outside judges.
